LG TONE Free

Refresh Your Sound

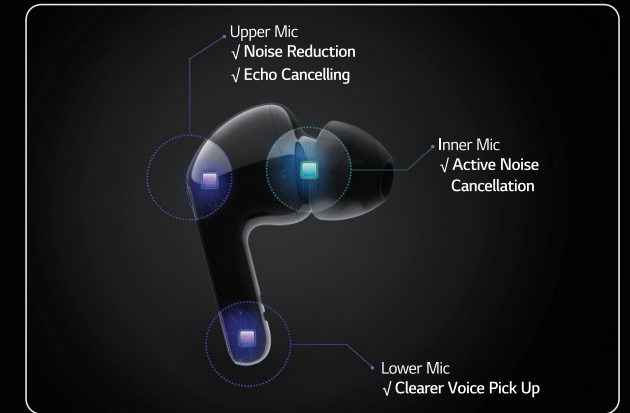

Premium Sound
Clear and Spatial Sound
with **MERIDIAN**

Active Noise Cancellation
Specialized ANC to Reduce Urban Noise

IPX4 Rated Water Resistant
IPX4 Rated for Sweat and Rain

Advanced Call Quality
Noise Reduction & Echo Cancellation

*This was tested by playing pink noise to four HATS Pinna outfitted with LG TONE Free FN7 and earbuds from three similarly priced earbud brands and measuring noise reduction levels.

UVnano

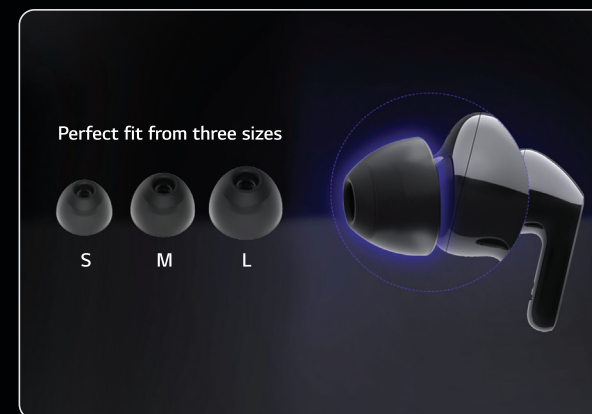

Kills 99.9% of Bacteria

UVnano™

UVnano Charging Case kills 99.9% of bacteria on the speaker mesh of the earbuds*

Independent testing, which was supervised by TÜV SÜD*

Medical-Grade Ear Gels
Hypoallergenic and Comfortable

*This device or any of its parts is not intended or implied to prevent or treat any health conditions; it is not a medical device, nor for use as or to replace a medical device. The base material in silicone ear gel meets ISO 10993 and USP Class VI requirements.

Long-lasting Battery Life
Just the Right Amount of Power

*Standard playtime when listening to music. The earbud batteries and cradle battery last for 7 and 14 hours respectively when Active Noise Cancellation function is turned off.

*UVnano is a compound word derived from the words UV and its unit nanometer. *Independent testing shows the UVnano charging cradle kills 99.9% of E. Coli & S. aureus bacteria on the speaker mesh of the earbuds in ten minutes while charging. The UV LED function works only when the charging cradle is connected to the power cable. *UV LED light is invisible and is only activated when the charging cradle is closed with the earbuds inside. The blue mood light is for aesthetic purposes only and appears when the charging cradle lid is opened.
