Steam Cycle*

*Intensive+Steam Course

TrueSteam®

Powerful Cleaning

High temperature steam, which consists of tiny particles, easily separates stains from dishes. Accordingly, TrueSteam® soaks and loosens toughly baked-on, caked-on food before the main wash.

Less Water Spots

TrueSteam® leaves dishes sparkling clean while reducing water spots by up to 60%*.

*Compared to LG non-steam model. Based on counting of water spots between LG model DFB325 (steam) and DFB415 (non-steam), according to LG internal test methods.

Hygiene Care

Hot and pure steam particles from boiling water cover every surface and corner of your dishes to provide hygienic cleaning.

LG QuadWash®

Conventional wash arms

Conventional wash arms rotate in one direction

Multi-Motion wash arms

The Multi-Motion wash arms rotate back and forth while spinning. The high-pressure jets power-clean dishes from multiple angles to reach every nook and cranny.

Four Washing Arms

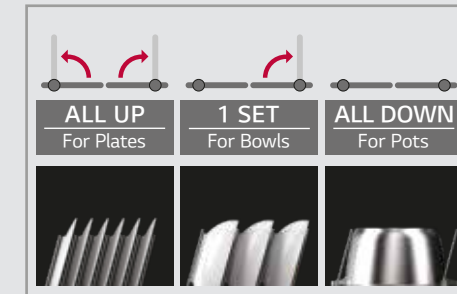

With four spray arms instead of two, QuadWash® provides stronger cleaning performance.

Multi-Directional Rotation

The multi-directionally rotating arms offer enhanced cleaning coverage by shooting water streams in various angles that reach every corner of the dishwasher.

EasyRack™ Plus

Foldable Tines

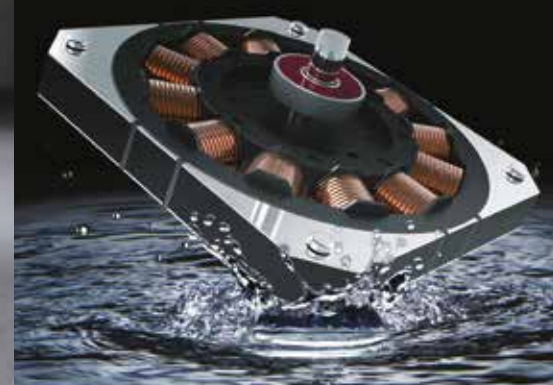

Load your dishes your way. Folding tines let you fit dishes wherever you want, whether it's a pan on the top rack or a bowl on the bottom.

Easy Height Adjustment

With one touch, you can adjust the height of the upper rack to three different levels to accommodate taller items on any rack.

Inverter Direct Drive

Quiet Operation

Compared to conventional motors, LG's innovative Inverter Direct Drive reduces noise, allowing you to watch another episode of your favorite show without interruption.

Energy Efficient

Using fewer moving parts and operating more efficiently, the Inverter Direct Drive consumes less energy.

10-Year Warranty

Count on your LG Dishwasher for years to give you 10-year limited warranty on the Direct Drive Motor.

LG ThinQ™

Download Cycles

With the LG SmartThinQ™ smartphone app, you can download new wash cycles to meet your needs, such as Pots & Pans, Casseroles, Glassware and Night Care.

Personalized Settings

Set the Rinse Aid Dispenser Level, Machine Clean Reminder, Signal Level and Clean Indicator Light.

Machine Clean Reminder

Keep your dishwasher fresh by activating the Machine Clean Reminder. After every 30 cycles, the lighted indicator will let you know it's time to run the cleaning cycle.

Smart Diagnosis™

If there is ever an issue with your dishwasher, you don't have to worry. Smart Diagnosis helps solve problems quickly and efficiently through your smartphone, with suggestions for easy solutions and next steps.
